

Topics of Interest

- Intersection of nature and tech
- Working with difficult materials
- Line art
- Human faces: sculpting
- Clever, deceiving sculptures

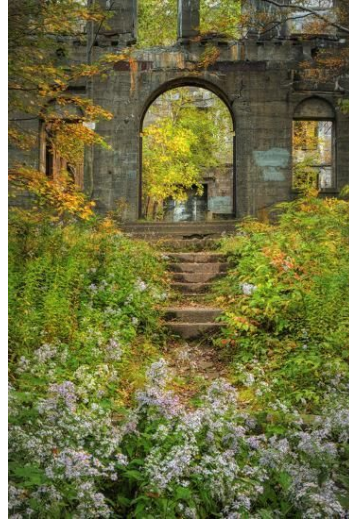

Forms of Sculpture I like:

1. Always wanted to try to carve sculptures
2. Stained glass - soldering
3. Soldering medal into figures
4. Epoxy Resin!

Final Sculpture Ideas

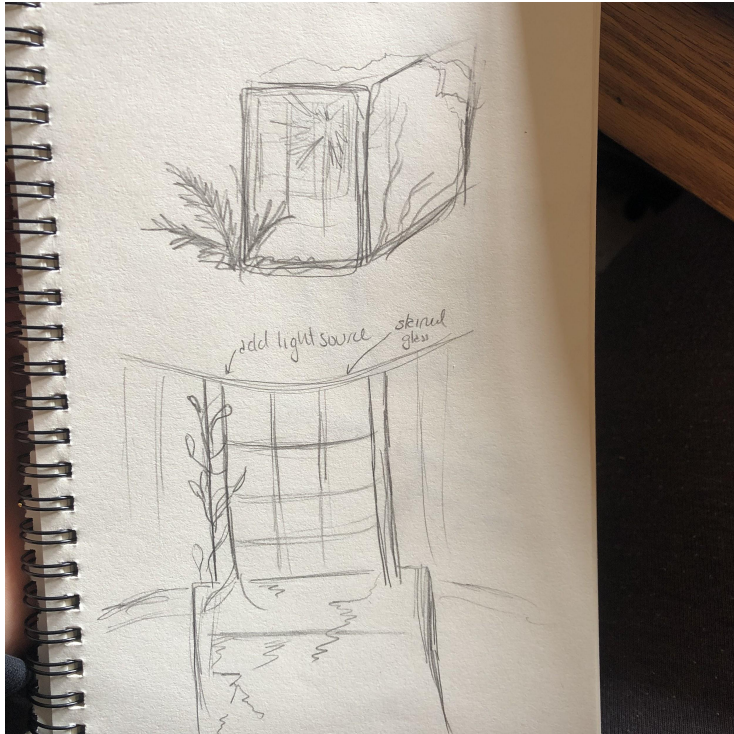

V1: Plant growing from abandoned house

- Preserving flowers in epoxy resin
- Using mix of metal / natural material

Sketch + Notes

-> I like the idea of the intersection of nature with industrialism. I'd like to make a flower pot that resembles a broken down city. I could collect actual flowers and plant from around campus and use more industrial materials like metal for the pot itself.

V2 Epoxy + Wire + Body
